SUMMARY

Revenue Operations leader with 6+ years driving sales funnel optimization, forecasting accuracy, and GTM planning across high-growth technology companies and management consulting. Expert in building complex reporting and dashboards, analyzing pipeline quality and whitespace opportunities, and translating large datasets into executive-level insights that drive data-driven sales decisions and operational efficiency.

CORE EXPERIENCE

Armor Defense, USA (Remote, Chicago)

Senior Technical Product Manager

May 2025 - Present

- Led migration of cybersecurity technology platform used by 400+ clients providing secure monitored cloud infrastructure, built comprehensive reporting and inspection views that enabled leadership to track adoption metrics, reaching 80% adoption within 3 months while retaining 98% of clients
- Managed end-to-end initiative to launch container runtime security product through systematic market opportunity analysis and business metrics modeling, unlocking customer segment projected to generate \$2M revenue within first year
- Analyzed customer tickets to identify operational inefficiencies in complex enterprise workflows, designed and implemented system improvements that reduced engineering overhead by 50% enabling strategic focus

Strategy&, Dubai

Senior Associate

Oct 2022 - Jan 2024

- Led acquisition target analysis for Telco client through comprehensive market research and financial modeling, recommended targets valued at \$10M+ that expanded product portfolio by 30% and entered 2 new market segments
- Generated strategic 5-year revenue projections and financial forecasts for Kuwaiti Telco subsidiary by synthesizing complex market data, providing crucial insights for expansion and investment decisions to executive leadership
- Deployed comprehensive governance and reporting systems covering sales performance, pipeline forecasting, and strategic initiative tracking, enhancing transparency and accelerating implementation across leadership teams
- Led strategic planning for merger of 2 IoT leaders in KSA, designed operating model harmonizing operations and systems, leading to 95% employee retention and operational cohesiveness

Urban Company, Singapore

Strategy and Operations Manager

Jan 2022 - Aug 2022

- Built and led 2-person analytics team driving operational improvements for largest service category, delivered 25% increase in monthly orders, 15-point NPS rise to 45, and 10% boost in average provider ratings through funnel optimization
- Led strategic initiative to re-launch service category by designing comprehensive operational frameworks for pricing, quality metrics, and hyperlocal customer acquisition to achieve target unit economics and scalability
- Analyzed customer and provider satisfaction data to identify whitespace opportunities, implemented targeted lifecycle interventions that increased provider earnings 15% and improved customer retention rates 25%
- Optimized agency partnerships through systematic performance analysis and contract restructuring, resulting in 10% cost reduction and 15% improvement in service quality metrics

Accenture, Singapore

Management Consultant

Mar 2018 - Dec 2021

- Designed and implemented B2B marketplace launch strategy including competitor analysis, target segmentation, and operational workflows, generating over \$1.2M in sales across Southeast Asian markets within first 3 months of operations
- Created demand forecasting model for global shipping giant to optimize empty container allocation across 300+ ports worldwide, improving forecasting accuracy by 1% and generating approximately \$4M in annual savings
- Directed team of 4 analysts in comprehensive market research and advertising spend optimization, delivered structured analysis and clear recommendations that drove 20% ROI increase for big tech APAC headquarters
- Managed \$5M strategic technology initiative for gaming client, led cross-functional collaboration aligning business requirements with technical solutions to drive measurable operational excellence

AI/TECHNICAL PROJECTS

- SEC EDGAR RAG System: Financial disclosure analysis for public companies — Python, sentence-transformers, Claude Haiku. Custom numpy vectorstore. GitHub: pp-market-intelligence
- Spotify MCP Server: Liked song classifier with 5-tier genre fallback and automatic playlist creation. GitHub: pp-spotify-genre-classifier_playlist-creator
- OpenClaw Job Hunting Pipeline: Job search automation scanning 100+ companies via ATS APIs, DeepSeek scoring, Flask dashboard
