SUMMARY

Business operations leader with 6+ years driving cross-functional initiatives, operational excellence, and 0→1 delivery across high-growth technology companies and top-tier management consulting. Expert at converting ambiguous problems into measurable outcomes through systems thinking, stakeholder management, and data-driven execution. Proven track record building durable processes, launching new verticals, and delivering high-leverage projects from scope through handoff with clear KPI impact.

CORE EXPERIENCE

Armor Defense, USA (Remote, Chicago)

Senior Technical Product Manager

May 2025 - Present

- Owned end-to-end migration of cybersecurity technology platform used by 400+ clients, providing secure monitored cloud infrastructure with inheritable compliance, reaching 80% adoption within 3 months while retaining 98% of clients
- Launched container runtime security product from concept to market through cross-functional initiative management, analyzing market opportunity and business metrics to unlock customer segment projected to generate \$2M revenue within first year
- Built automated workflows and system improvements by analyzing operational inefficiencies in customer tickets, reducing engineering overhead by 50% and enabling team to focus on strategic product development

Strategy&, Dubai

Senior Associate

Oct 2022 - Jan 2024

- Drove strategic planning and execution for merger of 2 IoT leaders in KSA, designing operating model harmonizing operations and systems across functions, leading to 95% employee retention and operational cohesiveness
- Delivered acquisition target analysis for Telco client through market research and financial modeling, recommending targets valued at \$10M+ that expanded product portfolio by 30% and entered 2 new market segments
- Built comprehensive governance and reporting systems covering sales performance, technology deployment, and strategic initiative tracking, enhancing transparency and accelerating cross-functional implementation
- Synthesized complex market data to generate strategic 5-year revenue projections and financial forecasts for Kuwaiti Telco subsidiary, providing crucial insights for expansion and investment decisions

Urban Company, Singapore

Strategy and Operations Manager

Jan 2022 - Aug 2022

- Built and led 2-person team driving operational improvements for largest service category, implementing data-driven initiatives that increased monthly orders 25%, lifted NPS 15 points to 45, and boosted average cleaner ratings 10% to 4.2/5
- Launched strategic initiative to re-launch service category through designing operational frameworks for pricing, quality control, and hyperlocal customer acquisition to achieve target unit economics and market penetration
- Delivered targeted retention programs based on customer and provider satisfaction analysis, implementing lifecycle interventions that increased provider earnings 15% and improved customer retention rates 25%
- Optimized agency partnerships through process redesign and performance management, resulting in 10% cost reduction and 15% improvement in service quality metrics

Accenture, Singapore

Management Consultant

Mar 2018 - Dec 2021

- Designed and implemented B2B marketplace launch strategy including competitor analysis, target segmentation, pricing, and operations frameworks, generating \$1.2M in sales across Southeast Asian markets within first 3 months
- Created demand forecasting model for global shipping giant to optimize empty container allocation across 300+ ports worldwide, improving forecasting efficiency by 1% and generating ~\$4M in annual savings
- Directed team of 4 analysts conducting comprehensive advertising landscape analysis, delivered spend optimization recommendations that drove 20% ROI increase for big tech APAC headquarters
- Managed \$5M strategic technology transformation initiative for gaming client, leading cross-functional collaboration to align business requirements with technical solutions and drive operational excellence

AI/TECHNICAL PROJECTS

- SEC EDGAR RAG System: Financial disclosure analysis for public companies — Python, sentence-transformers, Claude Haiku. Custom numpy vectorstore. GitHub: pp-market-intelligence
- Spotify MCP Server: Liked song classifier with 5-tier genre fallback and automatic playlist creation. GitHub: pp-spotify-genre-classifier_playlist-creator
- OpenClaw Job Hunting Pipeline: Intelligent scraping (SEC form D, VC portfolios) 100's of target companies and automation scanning via ATS APIs, DeepSeek scoring, Flask dashboard
