SUMMARY

Technical program manager with 6+ years driving performance optimization, cross-functional execution, and data-driven improvements across high-growth technology companies and top-tier consulting. Expert in managing complex technical initiatives, leading engineering partnerships, and delivering measurable performance gains through systematic analysis and scalable operational programs across global markets.

CORE EXPERIENCE

Armor Defense, USA (Remote, Chicago)

Senior Technical Product Manager

May 2025 - Present

- Led migration of cybersecurity technology platform used by 400+ clients, coordinating cross-functional teams to reach 80% adoption within 3 months while retaining 98% of clients through careful change management and technical optimization
- Managed end-to-end launch of container runtime security product, partnering with engineering teams to analyze market opportunity and optimize system performance for customer segment projected to generate \$2M revenue within first year
- Analyzed customer tickets and system performance data to identify operational bottlenecks, implemented automated solutions that reduced engineering overhead by 50% enabling focus on strategic development

Strategy&, Dubai

Senior Associate

Oct 2022 - Jan 2024

- Led strategic planning for merger of 2 IoT leaders in KSA, designed technical integration roadmap and operating model harmonizing systems and processes, achieving 95% employee retention through structured program management
- Conducted acquisition target analysis for Telco client, building financial models and technical assessments to recommend \$10M+ targets that expanded product portfolio by 30% across 2 new market segments
- Developed comprehensive governance and reporting systems covering sales performance analytics, technology deployment metrics, and strategic initiative tracking, enhancing cross-functional visibility and accelerating implementation

Urban Company, Singapore

Strategy and Operations Manager

Jan 2022 - Aug 2022

- Built and led 2-person analytics team driving performance improvements for largest service category, achieving 25% increase in monthly orders, 15-point NPS rise to 45, and 10% boost in provider ratings through data-driven optimization
- Led strategic initiative to re-launch service category, designing operational frameworks and system improvements for pricing algorithms, quality scoring, and hyperlocal acquisition to optimize unit economics and performance metrics
- Implemented targeted retention initiatives based on satisfaction data analysis that increased provider earnings 15% and improved customer retention rates 25% through systematic performance tracking
- Optimized agency partnerships through performance analysis and contract restructuring, delivering 10% cost reduction and 15% improvement in service quality metrics

Accenture, Singapore

Management Consultant

Mar 2018 - Dec 2021

- Designed and implemented B2B marketplace launch strategy including competitive analysis, segmentation algorithms, and pricing optimization, generating \$1.2M in sales across Southeast Asian markets within first 3 months through systematic performance tracking
- Created demand forecasting model for global shipping giant to optimize container allocation across 300+ ports worldwide, improving forecasting accuracy by 1% and generating \$4M annual savings through algorithmic performance enhancement
- Directed team of 4 analysts conducting advertising performance analysis, optimized spend allocation algorithms across channels and delivered recommendations driving 20% ROI increase for big tech APAC operations
- Managed \$5M strategic technology initiative for gaming client, coordinating cross-functional teams to align technical requirements with business performance objectives and drive operational excellence

EDUCATION AND OTHER EXPERIENCES

National University of Singapore (NUS) | BSc Economics

Jul 2014 - Jan 2018

Alice, New York | Sales Strategy and Operations Intern

Jul 2016 - Jul 2017

Singapore Civil Defense Force | Lieutenant (Rota Commander)

Mar 2012 - Mar 2014

AI/TECHNICAL PROJECTS

- SEC EDGAR RAG System: Financial disclosure analysis for public companies — Python, sentence-transformers, Claude Haiku. Custom numpy vectorstore. GitHub: pp-market-intelligence
- Spotify MCP Server: Liked song classifier with 5-tier genre fallback and automatic playlist creation. GitHub: pp-spotify-genre-classifier_playlist-creator
- OpenClaw Job Hunting Pipeline: Intelligent scraping (SEC form D, VC portfolios) 100's of target companies and automation scanning via ATS APIs, DeepSeek scoring, Flask dashboard
