SUMMARY

Technical program manager with 6+ years driving cross-functional initiatives, systems integration, and operational excellence across high-growth technology companies and management consulting. Proven track record managing complex technical programs, leading engineering partnerships, and delivering measurable results through data-driven execution and strategic planning across global organizations.

CORE EXPERIENCE

Armor Defense, USA (Remote, Chicago)

Senior Technical Product Manager

May 2025 - Present

- Led migration of cybersecurity technology platform used by 400+ clients across secure monitored cloud infrastructure, coordinating cross-functional engineering teams to reach 80% adoption within 3 months while retaining 98% of clients
- Managed end-to-end technical program to launch container runtime security product, analyzing system requirements and business metrics to unlock customer segment projected to generate \$2M revenue within first year
- Analyzed customer tickets and system performance data to identify operational bottlenecks, implemented automated solutions and process improvements that reduced engineering overhead by 50%

Strategy&, Dubai

Senior Associate

Oct 2022 - Jan 2024

- Orchestrated technical integration for merger of 2 IoT leaders in KSA, designed unified operating model harmonizing systems, data flows and organizational structures, leading to 95% employee retention
- Led acquisition target analysis for Telco client, conducted technical due diligence and financial modeling to recommend targets valued at \$10M+ that expanded technology portfolio by 30%
- Designed and deployed comprehensive governance systems covering technology deployment, performance monitoring, and strategic initiative tracking, enhancing operational transparency and execution velocity

Urban Company, Singapore

Strategy and Operations Manager

Jan 2022 - Aug 2022

- Built and led 2-person technical operations team driving platform improvements for largest service category, achieving 25% increase in monthly orders, 15-point NPS rise to 45, and 10% boost in provider ratings
- Led strategic initiative to re-launch service category, designed technical frameworks and system architectures for pricing optimization, quality control and hyperlocal customer acquisition
- Optimized agency partnership integrations through API improvements and workflow automation, delivering 10% cost reduction and 15% improvement in service quality metrics

Accenture, Singapore

Management Consultant

Mar 2018 - Dec 2021

- Designed and implemented B2B marketplace technical architecture and launch strategy across competitor analysis, system integration, and operational workflows, generating \$1.2M in sales across Southeast Asian markets within first 3 months
- Created demand forecasting algorithms and system optimization for global shipping giant managing container allocation across 300+ ports worldwide, improving forecasting accuracy by 1% and generating \$4M annual savings
- Directed team of 4 analysts in comprehensive data analysis and system performance optimization, delivered technical recommendations driving 20% ROI increase for big tech APAC operations

AI/TECHNICAL PROJECTS

- SEC EDGAR RAG System: Financial disclosure analysis platform using Python, sentence-transformers, Claude Haiku with custom numpy vectorstore
- Spotify MCP Server: Automated song classification system with 5-tier genre fallback and playlist generation capabilities
- OpenClaw Job Hunting Pipeline: Intelligent scraping and automation system processing 100s of companies via ATS APIs with DeepSeek scoring

EDUCATION AND OTHER EXPERIENCES

National University of Singapore (NUS) | BSc Economics

Jul 2014 - Jan 2018

Alice, New York | Sales Strategy and Operations Intern

Jul 2016 - Jul 2017

Singapore Civil Defense Force | Lieutenant (Rota Commander)

Mar 2012 - Mar 2014
